Project objectives

Our project introduced sport activities into basic skills and communication training for disadvantaged adults.

Its reception in the public has benefited tremendously from the timely coincidence of the project dissemination activities with the European Football Championship EURO 2008

Dissemination/demonstration

Our dissemination and demonstration events have created an excellent opportunity to direct public awareness from mere sport issues to educational aspects using sport as underlying pedagogical method.

Products/results

The project has developed a

- ⊕ Curriculum for basic skills and social skills training in combination with sports activities and a
- ⊕ Tool Box containing materials and methods.
